CAREER OPPORTUNITIES:

The Applied Physics: Acoustics degree is an excellent degree for those who may continue study in acoustics as a scientist, engineer, or consultant after the BS working in national or government labs (Los Alamos, Sandia, NASA, Air Force Research Lab, Army Research Lab, Naval Undersea Warfare Center), government contractors (Raytheon, Lockheed Martin, Northrop Grumman, Penn State Applied Research Lab, Univ. of Texas Applied Research Labs), acoustical product companies (Amazon, Apple, Bose, JBL, Meta, Motorola), acoustical consulting (The Church of Jesus Christ of Latter-day Saints, MD Acoustics, Spectrum Engineers), or companies concerned with noise or vibration (Caterpillar, Ford). Interestingly, the places listed in parentheses are locations where graduates from BYU in acoustics have gone to work. Those who graduate may go to work right after their BS or they may go on to graduate school.

THE DISCIPLINE:

Acoustics is defined as the science that deals with the production, control, transmission, reception, and effects of sound (as defined by Merriam-Webster). While acoustics does include the study of musical instruments and architectural spaces, it also covers a vast range of topics, including: noise control, SONAR for submarine navigation, ultrasounds for medical imaging, thermoacoustic refrigeration, seismology, bioacoustics, and electroacoustic communication.

MAP DISCLAIMER

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.

handshake

BYU's own job board. Employers who want to hire BYU graduates or offer internships to current students post job openings to this website and students apply. Just like LinkedIn, employers can view student profiles and students can network as they apply for jobs and internships

Login to handshake.byu.edu >>> BYU Net ID

**you do not need to create an account, just sign in with you BYU information*

HOW TO MAKE THE MOST OUT OF HANDSHAKE:

1. COMPLETE YOUR PROFILE

- Upload your resume and it will auto-fill in your profile
- Completed profiles tailor your Handshake experience
- Information from your transcript is already uploaded
- Fill in the Summary/Bio section
- Fill in your past jobs and experiences, including all the bullet points you use on your resume
- Add a professional headshot and background photo

Remember: every word in your profile will be searchable by students and employers

4. EXPLORE FELLOW STUDENTS
